

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL  
PRODUCT**

**FOR THE CONTROL OF SPECIFIED INSECTS IN ASIAN ROOT VEGETABLES**

**PERMIT NUMBER - PER12716**

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

**THIS PERMIT IS IN FORCE FROM 12 APRIL 2015 TO 31 JULY 2025**

**Permit Holder:**

HORTICULTURE INNOVATION AUSTRALIA LTD  
Level 7, 141 Walker Street  
NORTH SYDNEY NSW 2060

**Persons who can use the product under this permit:**

Persons generally.

## CONDITIONS OF USE

**Product to be used:**

CONFIDOR 200 SC INSECTICIDE (APVMA No. 50548)

PLUS OTHER REGISTERED PRODUCTS

Containing: 200 g/L imidacloprid as their only active constituent.

**Directions for Use:**

Crop	Pest	Rate	Critical Use Comments
Asian Root Vegetables specified in Attachment 1	Greenhouse Whitefly ( <i>Trialeurodes vaporarium</i> ), Green Peach Aphid ( <i>Myzus persicae</i> ) and  <u>Suppression only</u> Plague Thrips ( <i>Thrips imaginis</i> )	25 mL/100 L or 250 mL/ha	Apply at first sign of infestation.  Ensure thorough coverage of all plant surfaces. Apply by boom sprayers, hand wands, side mounted booms or equivalent.  Apply a maximum of 2 applications per crop at least 14 days apart.  Precautions: Imidacloprid applications may disrupt bio-control agents used in IPM programs and is dangerous to bees.  Follow the ‘Insecticide Resistance Warning’ and the ‘Resistance Management Strategy’ for green peach aphid and use within an integrated pest management strategy. Apply product to coincide with a susceptible life stage (adults and nymphs).

**Withholding Period:**

Harvest: DO NOT harvest for 7 days after application.

**Jurisdiction:**

ACT, NSW, QLD, SA, TAS, NT, & WA only.

(Note: Victoria is not included in this permit because of their 'Control of Use' legislation means that a permit is not required to legalise this off-label use in VIC.)

**Additional Conditions:**

This Permit provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

*Other Matters*

Continued issuance of this permit is subject to the outcomes of the current APVMA review of imidacloprid. This permit may be impacted by the outcomes of this review.

Issued by

Australian Pesticides and Veterinary Medicines Authority

Note: Permit amended to update holder details. Permit version 2 issued 27 March 2018.

Note: Permit holder address updated. Permit expiry extended to 31/07/2025. Issued as version 3 22 July 2020.
