

**PERMIT TO ALLOW MINOR USE
OF A REGISTERED AGVET CHEMICAL PRODUCT
FOR THE CONTROL OF POWDERY MILDEW IN MUNG BEANS**

PERMIT NUMBER - PER13979

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 3 FEBRUARY 2014 TO 30 JUNE 2020.

Permit Holder:

PULSE AUSTRALIA LIMITED
Level 10 Farrer House
24-28 Collins St
MELBOURNE VIC 3000

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

RELYON TEBOO 430 SC FUNGICIDE (82181)

PLUS OTHER REGISTERED PRODUCTS

Containing: 430 g/L TEBUCONAZOLE as their only active constituent.

BUZZ ULTRA750 WG FUNGICIDE (65600)

PLUS OTHER REGISTERED PRODUCTS

Containing: 750 g/kg TEBUCONAZOLE as their only active constituent.

LAGUNA XTREME 800 WG FUNGICIDE (67455)

PLUS OTHER REGISTERED PRODUCTS

Containing: 800g/kg TEBUCONAZOLE as their only active constituent.

Directions for Use:

Crop	Disease	Rate
Mungbeans	Powdery Mildew (<i>Erysiphe polygoni</i> or <i>Podosphaera xanthii</i>)	430 g/L Products: 145 mL/ha 750 g/kg Products: 83 g/ha 800 g/kg Products: 78 g/ha

Critical Use Comments:

- Apply as foliar spray in total volume of at least 50L/ha by ground and 10L/ha by air.
- DO NOT apply more than 3 applications per crop with a minimum re-treatment interval of 14 days between consecutive applications.
- For optimal disease control apply at first sign of disease. A second spray 14 days later maybe necessary under some conditions.

Withholding Period:

Harvest: DO NOT harvest for 21 DAYS after application.

Grazing: DO NOT graze or cut for stock food for 21 DAYS after application.

Jurisdiction:

NSW & QLD only.

Additional Conditions:

Export of treated produce:

To allow treated produce to be supplied or otherwise made available for human consumption the APVMA has established a temporary Maximum Residue Limit (MRL) at 0.2 mg/kg for TEBUCONAZOLE in mung beans (dry). This temporary MRL applies only to produce marketed and consumed in Australia. Therefore **if treated produce is to be exported** due account should be taken of the residue definition and residue limits/import tolerances of importing countries and that any residues must not exceed those requirements of the importing country.

THIS PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

Issued by
Australian Pesticides and Veterinary Medicines Authority

Note:

Permit version 2 issued 5 September 2017. Permit amended to extend expiry date until 30 June 2020.

Permit version 3 issued 14 September 2017. Permit amended to remove 500 g/L formulation and add 750 and 800 g/kg formulations.
