

**PERMIT TO ALLOW EMERGENCY USE AND SUPPLY  
OF AN UNREGISTERED AGVET CHEMICAL PRODUCT**

**FOR THE CONTROL OF FUNGAL DISEASE IN SEEDLING PEANUTS**

**PERMIT NUMBER - PER14248**

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a Supplier (as indicated) to possess the product for the purposes of supply and to supply the product to a person who can use the product under permit. This permit also allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder, the Suppliers (if not one and the same) and any person stipulated below to claim that the product can be used in the manner specified in this permit.

**THIS PERMIT IS IN FORCE FROM 19 JUNE 2013 TO 30 SEPTEMBER 2020.**

**Permit Holder:**

BGA AGRISERVICES PTY LTD  
21-29 Youngman Street  
KINGAROY QLD 4610

**Supplier:**

Syngenta Crop Protection Pty Limited  
PO BOX 886,  
North Ryde, NSW, 1670

**Persons who can use the product under this permit:**

Persons generally.

## CONDITIONS OF USE

### Product:

DYNASTY PD FUNGICIDE

Containing: 32 g/kg AZOXYSTROBIN

4 g/kg METALAXYL-M

20 g/kg FLUDIOXONIL as the only active constituents.

### Directions for Use:

Commodity	Disease	Rate
PEANUT SEED (PRIOR TO PLANTING)	ASPERGILLUS CROWN ROT	250 g/100 kg seed

### Critical Use Comments:

Apply in accordance with label as contained in Attachment 1.

### Jurisdiction:

NSW, QLD and NT only.

### Additional Conditions:

Users:

- PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

Suppliers:

- All suppliers must supply the product in a container that complies with the requirements of section 18(1) of the Agricultural and Veterinary Chemicals Code Regulations. Attached to this container must be a label which is identical in content and format to the label in Attachment 1.
- All suppliers must at the time of the supply of the product provide to the person a copy of the permit in full setting out the conditions and/or instructions for use or schedule to the permit approved by the APVMA that sets out the conditions and/or instructions for use.
- This permit allows only the persons or companies listed as the Supplier to possess the product for the purposes of supply and to supply the product to a person who can use the product under the conditions of this permit.
- This permit only allows the persons or companies listed as the supplier to possess the product for the purposes of supply and to supply the product to a person who can use the product under the conditions of this permit.

- The supplier must maintain records of product supplied under this permit. Specifically the records must include the quantity and dates of product supplied, the names and addresses of the persons supplied product and confirmation that at the time of supply of the product a copy of the permit was provided to them in full setting out the conditions and/or instructions for use. The records must be progressively maintained whilst the permit is in force and for a minimum period of two years from the date of expiry of this permit and must be made available to the APVMA upon request.
- Upon a request being made, the records are to be provided:
  - immediately if the request is verbally from an APVMA *Inspector* who has attended the premises
  - in the time specified in the written correspondence containing the request.
- The records regarding persons, amount of product supplied and confirmation that at the time of supply of the product a copy of the permit in full setting out the conditions and/or instructions for use approved by the APVMA must be made at the time of supply of the chemical product. Details of the amount and date of product supplied and names and addresses of persons supplied must be made within 7 days of the permit holder becoming aware.

Issued by The Australian Pesticides and Veterinary Medicines Authority.

Note: 07 September 2015, Version 2; expiry extended until 30 September 2020.

### DIRECTIONS FOR USE

Crop	Disease	Rate	Critical Comments
Peanuts	Aspergillus Crown Rot ( <i>Aspergillus niger</i> )	250 g/ 100 kg seed	Apply in dry form using equipment specifically designed to apply a dust seed treatment to clean seed before sowing.  This seed treatment should be used as part of an integrated strategy to control seedling disease.

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION**

### WITHHOLDING PERIODS

**Harvest: NOT REQUIRED WHEN USED AS DIRECTED**

**Grazing: DO NOT GRAZE OR CUT FOR STOCKFOOD FOR 12 WEEKS AFTER PLANTING**

### GENERAL INSTRUCTIONS

DYNASTY is a mixture of azoxystrobin, fludioxonil and metalaxyl-M. It combines three different modes of action providing disease protection to seeds, roots and young seedlings.

### Application

Dynasty PD should be applied in dry form using equipment specifically designed to apply a dust seed treatment to peanut seeds. Consult the manufacturer of the application equipment being used for calibration and operation procedures. Peanut seeds should be uniformly covered with Dynasty PD.

### Fungicide Resistance Warning

**Group 4 | 11 | 12 Fungicide**

DYNASTY is a combination of a phenylamide, strobilurin and phenylpyrrole fungicide. For fungicide resistance management DYNASTY is a Group 4, Group 11 and Group 12 fungicide. Some naturally occurring individual fungi resistant to DYNASTY and other Group 4 and/or Group 11 and/or Group 12 fungicides may exist through normal genetic variability in any fungal population. The resistant individuals can eventually dominate the fungi population if these fungicides are used repeatedly. The resistant fungi will not be controlled by DYNASTY and other Group 4 and/or Group 11 and/or Group 12 fungicides, thus resulting in a reduction in efficacy and possible yield loss. Since the occurrence of resistant fungi is difficult to detect prior to use, Syngenta Crop Protection Pty Ltd accepts no liability for any losses that may result from the failure of DYNASTY to control resistant fungi.

### PRECAUTION

DO NOT use treated seed for animal or human consumption.

DO NOT allow treated seed to contaminate grain or other seed intended for animal or human consumption.

DO NOT feed treated seed, or otherwise expose, to wild or domestic birds.

Any spillage of treated seed which occurs either during the seed treatment process or in the field operations must be cleaned up immediately, preferably by recovery and re-use.

When treated seed is stored it should be kept apart from other grain and the bags or other containers should be clearly marked to indicate the contents have been treated. Bags which have held treated seed should not be used for any other purpose.

### **PROTECTION OF LIVESTOCK**

DO NOT feed treated seeds to animals, including poultry.

DO NOT allow seed treated with this product to contaminate feed intended for animal consumption.

### **PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT**

Dangerous to fish and other aquatic organisms.

DO NOT contaminate streams, rivers or waterways with the product or used containers.

### **STORAGE AND DISPOSAL**

Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight.

Single rinse before disposal. Dispose of rinsings in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots. Puncture and bury empty bags in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty bags and product should not be burnt.

### **SAFETY DIRECTIONS**

**Will irritate the eyes. Avoid contact with eyes. Repeated exposure may cause allergic disorders. Wash hands after use.**

**When using the product, wear:**

- cotton overalls buttoned to the neck and wrist,
- a washable hat, and
- elbow-length PVC gloves.

**After each day's use, wash gloves and contaminated clothing.**

### **FIRST AID**

**If poisoning occurs contact a doctor or Poisons Information Centre. Phone 131 126.**

### **MATERIAL SAFETY DATA SHEET**

If additional hazard information is required, refer to the Material Safety Data Sheet. For a copy phone 1800 067 108 or visit our website at [www.syngenta.com.au](http://www.syngenta.com.au)

### **MANUFACTURER'S WARRANTY AND EXCLUSION OF LIABILITY**

Syngenta has no control over storage, handling and manner of use of this product. Where this material is not stored, handled or used correctly and in accordance with directions, no express or implied representations or warranties concerning this product (other than non-excludable statutory warranties) will apply. Syngenta accepts no liability for any loss or damage arising from incorrect storage, handling or use.
