Critical Use Comments:

- This permit is only to be used in the emergency event of an incursion of the exotic insect pests listed in the *Directions for Use Table* into Australia.
- Apply maximum of four (4) foliar applications per crop.
- To optimise control, treatment application should commence at first signs of infestation.
- Repeat application following minimum 7 day interval.
- Apply using fixed-wing aircraft or using ground boom spray or similar equipment.
- Use medium spray quality or larger according to the ASAE S572 definition of nozzles.
 - Ground application - apply in at least 100 L/ha.
 - Aerial application - apply 20 - 30 L/ha.

Withholding Periods:

Harvest: DO NOT harvest for 7 DAYS after application.

Jurisdiction:

ALL states and Territories.

Additional Conditions:

This PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the DETAILS and CONDITIONS of this permit.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: 14 October 2019; expiry date extended to 31 March 2025. Permit issued as version 2.
