**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF HELIOTHIS IN CELERY**

PERMIT NUMBER – PER82358

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 5 FEBRUARY 2016 TO 31 JANUARY 2026

Permit Holder:

HORTICULTURE INNOVATION AUSTRALIA LTD
Level 7, 141 Walker Street
NORTH SYDNEY NSW 2060

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

SUMI-ALPHA FLEX INSECTICIDE (APVMA No. 53047)

PLUS OTHER REGISTERED PRODUCTS

Containing: 50 g/L ESFENVALERATE as the only active constituent.

RESTRAINT:

DO NOT apply if rain is expected within 6 hours.

DO NOT apply to synthetic pyrethroid resistant *Helicoverpa armigera* larvae longer than 5 mm. Refer to Resistance Management under General Instructions.

Directions for Use:

Crop	Pest	Rate
Celery	Heliothis (<i>Helicoverpa</i> spp.)	50 mL/100 L

Critical Use Comments:

- Apply at first sign of infestation and repeat as required by in-crop monitoring to maintain control of pests
- Apply by calibrated ground boomspray or similar equipment.
- Apply foliar spray to the point of runoff.

Withholding Period:

Harvest: Do not harvest for 1 day after application.

Jurisdiction:

All States and Territories, except VIC.

Note: Victoria is not included in this permit, as their Control-of-Use legislation means a permit is not required to legalise this off-label use in that State.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

Export of treated produce

Maximum Residue Limits (MRLs) have been established to allow treated produce to be used for human consumption. An MRL has been established for ESFENVALERATE in CELERY. MRLs can be found in the *Agricultural and Veterinary Chemicals Code (MRL Standard) Instrument 2019*. MRLs apply only to produce marketed and consumed in Australia. If treated produce is to be exported, residues must not exceed the limits/tolerances of the importing country.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: 17/05/2018 – Permit updated to update permit holder details. Permit issued as Version 2.

18/01/2021 –Permit expiry extended to 31/01/2026. Permit issued as Version 3.
