

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF GRASS AND BROADLEAF WEEDS IN MUNG BEANS**

PERMIT NUMBER – PER82490

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 6 DECEMBER 2016 TO 30 NOVEMBER 2026

Permit Holder:

PULSE AUSTRALIA LIMITED
Suite 501, Level 5
6 Help Street
CHATSWOOD NSW 2067

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

RAPTOR WG HERBICIDE (APVMA No. 50854)

PLUS OTHER REGISTERED PRODUCTS

Containing: 700 g/kg IMAZAMOX as the only active constituent.

CLAW 350SL HERBICIDE (APVMA No. 70281)

PLUS OTHER REGISTERED PRODUCTS

Containing: 350 g/kg IMAZAMOX as the only active constituent.

RESTRAINT:

DO NOT apply to crops or weeds stressed by factors such as root or foliar diseases, water logging, nutrient deficiencies or extremes of temperature and moisture.

DO NOT apply to crops stressed by any previous herbicide treatments.

DO NOT apply by aircraft.

Directions for Use:

Crop	Pest	Rate
Mung Beans (post-emergence)	Weeds as per label for Peanuts and Soybeans (post-emergence)	<u>350 g/L product:</u> 100 mL/ha plus BS 1000 (or equivalent) at 200 mL per 100 L water <u>700 g/kg product:</u> 50 g/ha plus BS 1000 (or equivalent) at 200 mL per 100 L water

Critical Use Comments:

- Apply to actively growing broadleaved weeds in the cotyledon to 2 leaf stage. Apply to grass weeds up to the 2 tiller stage.
- Apply by ground boom only.
- DO NOT apply to crops beyond the 6 leaf stage.
- DO NOT apply more than 1 application per season.
- DO NOT use adjuvants other than BS 1000 or equivalent.
- DO NOT use oil or mix with other products containing emulsifying agents.
- Good crop growth will aid weed control. Weeds may not be totally controlled but populations will be significantly reduced and surviving plants will generally be severely retarded. Ensure that crop agronomy is correct, to provide competition to such weeds.

CROP SAFETY WARNING:

This product may cause shortening of plant internodes and may in some circumstances lead to transient crop yellowing but plants will soon recover. This effect is more pronounced under poor growth conditions including conditions of prolonged moisture stress.

- DO NOT apply if frost is forecast.
- DO NOT use imazamox after simazine.
- DO NOT exceed 250 g a.i./ha of diuron if use of imazamox is planned.

FOLLOW CROPS

Refer to section of product label regarding follow crops for appropriate plant back periods.

Withholding Period:

Harvest: Not required when used as directed.

Grazing: Do not graze or cut for stock food for 6 weeks after application.

Jurisdiction:

NSW and QLD only.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

Export of treated produce

Temporary Maximum Residue Limits (TMRLs) have been established to allow treated produce to be used for human and animal consumption. MRLs have been established for IMAZAMOX in MUNG BEAN (DRY) and MUNG BEAN FORAGE AND FODDER (FRESH WEIGHT). MRLs can be found in the *Agricultural and Veterinary Chemicals Code (MRL Standard) Instrument 2019*. MRLs apply only to produce marketed and consumed in Australia. If treated produce is to be exported, residues must not exceed the limits/tolerances of the importing country.

Issued by Australian Pesticides and Veterinary Medicines Authority

Note: 29/09/2021 – Permit expiry extended to 30/11/2026. Permit issued as Version 2.
