**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF FALL ARMYWORM IN CAPSICUM**

PERMIT NUMBER – PER89263

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 10 MARCH 2020 TO 31 JANUARY 2028

Permit Holder:

HORTICULTURE INNOVATION AUSTRALIA LTD
Level 7, 141 Walker Street
NORTH SYDNEY NSW 2060

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

PROCLAIM OPTI INSECTICIDE (APVMA No. 83844)

Containing: 44 g/kg EMAMECTIN present as EMAMECTIN BENZOATE as the only active constituent.

RESTRAINT:

DO NOT apply by aerial application.

Directions for Use:

Crop	Pest	Rate
Capsicum	Fall Armyworm (<i>Spodoptera frugiperda</i>)	250 g/ha

Critical Use Comments:

- Regularly scout crops to monitor for eggs and larvae. Treat when pests appear, targeting eggs at hatch or small larvae (prior to third instar stage) before the pest becomes entrenched.
- DO NOT apply more than 4 applications per crop.
- DO NOT apply less than 7 days after the previous treatment.
- Where more than one crop is grown per year, DO NOT apply more than 4 sprays per year.
- Ensure adequate spray penetration to obtain effective control of the pest.
- Follow instructions on the product label for the target crop.
- Refer to the Insecticide Resistance Management statement on the product labels to prevent or delay the development of resistance.

Withholding Period:

HARVEST: Do not harvest for 3 days after application

DO NOT allow livestock to graze treated crops or crop stubble.

Jurisdiction:

All States and Territories, except VIC.

Note: Victoria is not included in this permit, as their Control-of-Use legislation means a permit is not required to legalise this off-label use in that State.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.

Export of treated produce

MRLs can be found in the *Agricultural and Veterinary Chemicals Code (MRL Standard) Instrument 2019*. MRLs apply only to produce marketed and consumed in Australia. If treated produce is to be exported, residues must not exceed the limits/tolerances of the importing country.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: 05/01/2023 – Permit updated to convert from emergency to minor use and to cover capsicum only. Critical comments relevant to capsicum updated. Restraint added. Permit expiry extended to 31/01/2028. Permit issued as Version 2.
