**Critical Use Comments:**

- Prior to spray application, permit users must use the modified APVMA Spray Drift Management Tool (SDMT) Version 2.0 (or subsequent revision) as provided by the APVMA to calculate spray drift conditions and buffer zones for the proposed spray application.
- Users must subscribe to APVMA ‘news updates’ and the ‘pesticides newsletter’ to ensure they use the latest version of the modified SDMT.
- Users must comply with all spray drift conditions and buffer zones calculated by the SDMT when undertaking spray treatment.
- Users must comply with all other instructions and conditions on the registered product label.
- This permit does not allow users to use the SDMT to increase mandatory buffer zones specified on the current approved label.
- The rate of application must be within the approved rate range for the target crop on the registered product label.
- This permit does not allow the product to be applied via a method of application that is specifically excluded on the current approved label.
- The SDMT and other relevant documentation can be accessed on the APVMA website at <https://apvma.gov.au/node/113331>.

**Jurisdiction:**

All States and Territories.

**Additional Conditions:**

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

*Record Keeping:*

- Users must maintain accurate records of the use of the product in accordance with their relevant state/territory record keeping requirements, including a copy of the SDMT input parameters, spray drift conditions, buffer zones, as well as the ‘User Name’, ‘Date accessed’ and ‘Code’ outputs displayed at the bottom of the SDMT Conditions generated using the Spray Drift Management tool, for each spray completed under this permit.

*Other Matters:*

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.
