**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF AUSTRALIAN PLAGUE LOCUST IN TURF**

PERMIT NUMBER – PER11631

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 6 AUGUST 2009 TO 31 JULY 2023

Permit Holder:

NSW DEPARTMENT OF PRIMARY INDUSTRIES
161 Kite Street
ORANGE NSW 2800

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Containing: 25 g/L betacyfluthrin as their only active constituent.

Directions for Use:

Crop	Pest	Rate
<p>TURF AREAS</p> <p>INCLUDING restricted access areas such as golf courses, bowling greens, professional sporting venues, and racecourses</p> <p>EXCLUDING public access areas such as parks, gardens, reserves and local playing fields.</p>	<p>Australian plague locust (<i>Chortoicetes terminifera</i>)</p>	<p>400 g/L dimethoate products Apply 750 mL/ ha or 75 mL/100 L of water</p>
<p>TURF AREAS</p> <p>Including golf courses, bowling greens, sporting fields, racecourses, parks and gardens and reserves.</p>	<p>Australian plague locust (<i>Chortoicetes terminifera</i>)</p>	<p>200 g/L imidacloprid products Apply 50 mL/ha in 100 L water</p> <p>25 g/L betacyfluthrin products Apply 400 mL/ha or 4 mL/100 m²</p>

Critical Use Comments:

- Treat areas only when locust swarms are causing significant damage. DO NOT spray as a preventive measure.
- Apply by ground application equipment only.
- Prior to spray application the area to be treated must be vacated by all persons other than those directly involved in the spray application.
- Public notification must be displayed before and after spraying for the duration of the re-entry period that includes the date and time of spray, name of chemical, re-entry period and contact persons and details.

Re-entry:

DO NOT re-enter treated areas for 24 hours after application. If prior entry is required persons must wear full personal protective equipment (PPE) as specified on the product label for application of the chemical.

Withholding Period:

DO NOT GRAZE TREATED AREAS OR USE GRASS CLIPPINGS FROM TREATED AREAS AS FEED FOR LIVESTOCK.

Jurisdiction:

NSW, NT, QLD, SA and WA only.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.
