Critical Use Comments:

Application

- Apply via hand held spray equipment to locusts when they appear, with spray directed towards to ground. Re-apply as required.
- DO NOT apply using equipment carried on the back of the user.
- Areas to be sprayed MUST be vacated by all persons other than the person undertaking spraying.

Preparing and using the spray – including Personal Protective Equipment

- Users MUST read and follow all current label directions prior to use, in particular that appropriate Personal Protective Equipment (as advised under the section titled "Safety Directions" on the relevant product label) is worn when preparing and using the spray.
- When opening the container, preparing the spray and using the prepared spray wear cotton overalls, over normal clothing, buttoned to the neck and wrist, and a washable hat and elbow-length chemical resistant gloves
- When using in enclosed areas, wear cotton overalls, over normal clothing, buttoned to the neck and wrist, and a washable hat and elbow-length chemical resistant gloves and a face shield.
- Users should wash hands and all clothing following use.

Product storage

- Users MUST read and follow all label directions regarding product storage (as advised under the section titled "Storage & Disposal" on the relevant product label). In particular that products are to be kept locked up and out of the reach of children.

Re-entering treated areas following application

- Garden beds, shrubs etc. - it is recommended that persons should not enter treated garden beds, shrub areas etc. until the spray has dried.
- Lawn areas - it is recommended that lawn areas sprayed not be re-entered until 12 hours after application.

Additional information

- Users should obtain and a read a copy of the NSW DPI fact-sheet titled "**Plague locust control for the home gardener and nursery areas**".

Withholding Period:

Harvest: Do not harvest fruit and vegetables for 4 days after application.

Jurisdiction:

NSW, NT, QLD, SA, and WA only.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

Other Matters

Continued issuance of this permit is subject to the outcomes of the current APVMA review of malathion (maldison). This permit may be impacted by the outcomes of this review.
