Critical Use Comments:

- Apply as a foliar spray by boom spray or equivalent.
- Thorough coverage of all foliage is essential. Ensure complete, uniform coverage of foliage by increasing water volume in accordance with crop growth.
- Regularly scout the crop and apply spray at first sign of infestation. When heavy infestations occur, repeat applications may be required.
- DO NOT apply more than 3 applications per crop.
- DO NOT apply less than 7 days after the previous treatment.

Withholding Period:

Spring onions and shallots: Harvest: Do not harvest for 3 days after application.

Leeks: Harvest: Do not harvest for 7 days after application.

Jurisdiction:

All States and Territories, except VIC.

Note: Victoria is not included in this permit, as their Control-of-Use legislation means a permit is not required to legalise this off-label use in that State.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.

Export of treated produce

Maximum Residue Limits (MRLs) and Temporary Maximum Residue Limits (TMRLs) have been established to allow treated produce to be used for human consumption. MRLs and TMRLs have been established for MALATHION in LEEKS, SPRING ONION, SHALLOT and ONION, WELSH. MRLs can be found in the *Agricultural and Veterinary Chemicals Code (MRL Standard) Instrument 2019*. MRLs apply only to produce marketed and consumed in Australia. If treated produce is to be exported, residues must not exceed the limits/tolerances of the importing country.

Other Matters

Continued issuance of this permit is subject to the outcomes of the current APVMA review of MALATHION. This permit may be impacted by the outcomes of this review.
