PERMIT TO ALLOW MINOR USE OF AN AGVET CHEMICAL PRODUCT
FOR THE CONTROL OF HYMENACHNE IN TERRESTRIAL AND AQUATIC SITUATIONS

PERMIT NUMBER – PER13921

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 24 DECEMBER 2012 TO 30 JUNE 2022

Permit Holder:
NSW Department of Primary Industries
161 Kite Street
ORANGE NSW 2800

Persons who can use the product under this permit:
Persons who are trained and experienced in the use of Agricultural pesticides.
CONDITIONS OF USE

Products to be used:
ROUNDUP BIACTIVE HERBICIDE BY MONSANTO
Containing 360 g/L GLYPHOSATE PRESENT AS THE ISOPROPYLAMINE SALT as its only active constituent.

NUFARM WEEDMASTER DUO DUAL SALT TECHNOLOGY HERBICIDE
Containing 360 g/L GLYPHOSATE PRESENT AS THE ISOPROPYLAMINE & MONO-AMMONIUM SALTS as its only active constituent.

SICKLE 540 HERBICIDE
Containing 540 g/L GLYPHOSATE PRESENT AS THE ISOPROPYLAMINE SALT as its only active constituent.

TITAN GLYPHOSATE 700 HERBICIDE
Containing 700 g/kg GLYPHOSATE PRESENT AS THE MONO-AMMONIUM SALT as its only active constituent.

PLUS ANY OTHER REGISTERED PRODUCTS containing as their only active constituent(s) the same concentration of active as stated above AND that are REGISTERED FOR CONTROL OF EMERGED WEEDS IN ALL BODIES OF FRESH AND BRACKISH WATER WHICH MAY BE FLOWING, NON-FLOWING OR TRANSIENT.

Directions for Use:

<td>NON-AGRICULTURAL AREAS, NATIVE VEGETATION, PASTURE AND AQUATIC AREAS (AQUATIC AREAS INCLUDE - ALL BODIES OF FRESH AND BRACKISH WATER WHICH MAY BE FLOWING, NON-FLOWING OR TRANSIENT, ALSO ON MARGINS OF STREAMS, LAKES, DAMS AND CHANNELS).</td>
<td><em>Hymenachne</em> spp.</td>
<td>Products containing: 360 g/L: 14 L/ha 540 g/L: 9.3 L/ha 700 g/kg: 7.2 kg/ha</td>
</tr>
</tbody>
</table>

Critical Use Comments:

General:
- Apply in strict accordance with all label instructions for use in aquatic areas to minimise the amount of spray entering the water.
- DO NOT apply this product within 0.5km up-stream of potable water intake in flowing water (i.e. river or stream, etc.) or within 0.5km of a potable water intake in a standing body of water such as a lake, pond or reservoir.
- Apply by boom, handgun, knapsack or aerially (helicopter) a maximum of 4 times per year.
- DO NOT add additional surfactant / wetting agent unless it is approved for use in aquatic situations.
- Applications to moving bodies of water should be made while travelling upstream whenever possible to prevent concentration of the herbicide in water.
• When making any bankside applications, DO NOT overspray more than 0.5m into open water. Avoid spraying across moving bodies of water, or where weeds do not exist.

• When applying aerially, adhere to the product label directions to minimise off-target exposure to drift and use a droplet size of 300 micron vmd and minimum spray volume of 50 L/ha.

• The impacts of Hymenachne can be minimised through the use of integrated control strategies including prevention of spread and early intervention. A list of control methods and case studies are outlined in the National Hymenachne management manual (www.weeds.org.au/WoNS/hymenachne/ ). For the most up to date information contact your District Weed Control Officer or consult the Department of Employment, Economic Development & Innovation website.

• Monitor the development of further weeds and re-spray at intervals of 3-6 months if necessary. It is expected that a single spray will not provide full control.

Jurisdiction:
NSW only.

Additional Conditions:
This permit provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

Issued by the Australian Pesticides and Veterinary Medicines Authority.
Note: 21 July 2017; products to be used updated and expiry date extended to 30 June 2022 and issued as Version 2.
