This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

**THIS PERMIT IS IN FORCE FROM 04 OCTOBER 2013 TO 30 SEPTEMBER 2023**

**Permit Holder:**

AUSTRALIAN OLIVE ASSOCIATION LTD  
C/- HORTICULTURE AUSTRALIA LTD  
Suite 2, Level 5  
87 Wickham Terrace  
BRISBANE QLD 4003

**Persons who can use the product under this permit:**

Persons generally.

## CONDITIONS OF USE

### Product to be used:

NATRASOAP INSECTICIDAL SOAP SPRAY  
PLUS OTHER REGISTERED PRODUCTS

Containing: 285 g/L POTASSIUM SALTS OF FATTY ACIDS as their only active constituent.

### Directions for Use:

Crop	Pest	Rate
OLIVES	LACE BUG ( <i>Froggattia olivinia</i> )	Apply at a rate of 1-2 L/100 L water

### Critical Use Comments:

- Spring is the most effective time to control lace bug. Monitor trees carefully to observe the first nymph instars. This will occur early-September in the northern areas of Australia to early-October in the southern areas.
- For maximum impact, apply foliage spray just prior to the oldest nymphs developing wings.
- Apply a second spray 7 to 10 days after the initial spray to eradicate the next batch of nymphs to emerge from leaf tissue. If nymphs are large in size, the shorter repeat time is recommended. Select the longer repeat time when nymphs are small in size.
- Use sufficient spray volume to completely saturate the underside of leaves where lace bugs congregate. It is important that the spray makes direct contact with the pest.
- Refer to the approved label for instructions on the preparation of the diluent and for other conditions of use.

### Jurisdiction:

ALL STATES except VIC.

Note: Victoria is not included in this permit, as their Control-of-Use legislation means a permit is not required to legalise this off-label use in that state.

### Additional Conditions:

This PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use the products for the purposes specified in this permit must read, or have read to them, the permit particularly the information included in DETAILS OF PERMIT and CONDITIONS OF PERMIT.
