Persons generally.

## CONDITIONS OF USE

### Product to be used:

SWITCH FUNGICIDE [APVMA No. 51797]

Containing: 375 g/kg CYPRODINIL and 250 g/kg FLUDIOXONIL as the only active constituents.

### Directions for Use:

Crop Type	Disease	Rate
Dewberries (including Boysenberries and Loganberry) Blackberries Raspberries Cloudberrries Youngberries  Field and Protected Grown Crops	Grey mould ( <i>Botrytis cinerea</i> )	800 g - 1 kg product / ha  OR  80 – 100 g product / 100 L

### Critical Use Comments:

- Apply as a protectant spray at the first signs of infection or at white bud.
- Apply with sufficient water to ensure thorough coverage of foliage by a properly calibrated boom sprayer.
- DO NOT exceed a maximum of four (4) sprays per crop per season with no more than 2 applications sequentially (7-14 days apart) before using another fungicide from a different chemical (MoA) group for 2 applications.
- Follow all label recommendations and restrictions.

### Withholding Period:

*Harvest:* DO NOT harvest for 7 DAYS after application.

### Jurisdiction:

ALL STATES except VIC.

Note: Victoria is not included in this permit, as their *Control-of-Use* legislation does not require a permit to legalise this off-label use that state.

### Additional Conditions:

This PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the DETAILS and CONDITIONS of this permit.

### *Export of produce*

To allow treated produce to be supplied or otherwise made available for consumption, Temporary MRLs have been established in the *MRL Standard* for Cyprodinil and Fludioxonil in small berry fruits as listed under *Crop Type*. These TMRLs apply only to produce marketed and consumed in Australia. Where treated produce is to be exported, due account should be taken of the residue definition and residue limits/import tolerances of importing countries, and that any residues must not exceed those requirements of the importing country.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: 6/12/2017. Expiry date extended to 31/12/2023. Issued as version 2.
