

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF BEAN PODBORER AND BUDWORM IN
BORLOTTI BEANS**

PERMIT NUMBER – PER82683

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 09 MAY 2016 to 30 JUNE 2024

Permit Holder:

PULSE AUSTRALIA LIMITED
Suite 501, 6 Help Street
CHATSWOOD NSW 2067

Persons who can use the product under this permit:

Person generally.

CONDITIONS OF USE

Products to be used:

LANNATE-L INSECTICIDE (APVMA No. 47336)

PLUS OTHER REGISTERED PRODUCTS

Containing: 225 g/L METHOMYL as the only active constituent.

Directions for Use:

Crop	Pest	Rate
Borlotti beans	Bean pod borer (<i>Maruca vitrata</i>) Budworm (<i>Helicoverpa</i> spp.)	1.5 - 2 L product / ha

Critical Use Comments:

- Apply when pests first appear. Repeat treatment depending on infestation.
- Apply using calibrated ground boom sprayer or similar equipment.
- Use sufficient spray volume to achieve good penetration and thorough coverage of foliage.
- Use higher rate on heavier infestations.
- DO NOT apply more than four (4) applications per crop per season with a minimum re-treatment interval of 7 days between consecutive applications

Withholding Period:

Harvest: Do not harvest for 7 days after final application.

Jurisdiction:

NSW, QLD, NT and WA only.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

Protection of livestock

Keep animals and unprotected persons out of operational areas during treatment and while there is any danger of drift. DANGEROUS TO BEES - DO NOT spray plants in flower while bees are foraging. Ensure beehives are removed from the area to be treated and from adjacent paddocks.

Issued by the Australian Pesticides and Veterinary Medicines Authority.

Note: 22/06/2021 – Permit title updated and permit holder address updated. Permit expiry extended to 30/06/2024.
Permit issued as Version 2.
