Additional Conditions:

This PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the DETAILS and CONDITIONS of this permit.

Export of treated produce

Use of dimethoate may result in detectable residues in target crops and not all countries have established tolerances for dimethoate. If treated produce is to be exported due account should therefore be taken of the residue definition and residue limits/import tolerances of importing countries and that any residues must not exceed those requirements.
