**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF FALL ARMYWORM IN CAPSICUM AND SWEET CORN**

PERMIT NUMBER – PER89241

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 6 MARCH 2020 TO 31 JANUARY 2028

Permit Holder:

HORTICULTURE INNOVATION AUSTRALIA LTD
Level 7, 141 Walker Street
NORTH SYDNEY NSW 2060

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

SUCCESS NEO JEMVELVA ACTIVE INSECTICIDE (APVMA No. 64109)

Containing: 120 g/L SPINETORAM as the only active constituent.

Restrains:

DO NOT apply to seedlings of edible crops for transplanting i.e. seedlings intended for food production. DO NOT apply to vegetable or herb seedlings in a production nursery system.

DO NOT apply using Ultra Low Volume methods.

DO NOT apply by aircraft.

Comply with spray drift restraints on the product label.

Directions for Use:

Crop	Pest / Disease	Rate
Sweet corn Capsicum	Fall Armyworm (<i>Spodoptera frugiperda</i>)	400 mL/ha

Critical Use Comments:

- Regularly scout crops to monitor for eggs and larvae. Treat when pests appear, targeting eggs at hatch or small larvae (prior to third instar stage) before the pest becomes entrenched.
- Apply repeat applications at 7-14 day intervals as new infestations occur.
- DO NOT make more than 4 applications to any crop in one season.
- DO NOT apply less than 7 days after the previous treatment.
- Addition of a non-ionic wetting agent may improve control.
- Apply in accordance with the CropLife Resistance Management guidelines for Fall Armyworm.

Withholding Period:

HARVEST:

Capsicum: Do not harvest for 1 day after the last application.

Sweet corn: Do not harvest for 3 days after the last application.

GRAZING AND STOCKFOOD:

Sweet corn: Do not cut or graze for stockfeed for 3 days after application. Do not feed sweet corn forage or fodder to lactating dairy animals producing milk for human consumption.

Livestock Destined for Export Markets

Refer to product label for Export Slaughter Interval and Export Animal Feed Interval for livestock fed forage and fodder of sweet corn or sweet corn cannery waste.

Jurisdiction:

All States and Territories, except VIC.

Note: Victoria is not included in this permit, as their Control-of-Use legislation means a permit is not required to legalise this off-label use in that State.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.

Export of treated produce

MRLs can be found in the *Agricultural and Veterinary Chemicals Code (MRL Standard) Instrument 2019*. MRLs apply only to produce marketed and consumed in Australia. If treated produce is to be exported, residues must not exceed the limits/tolerances of the importing country.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: 05/01/2023 – Permit amended to minor use permit and to permit use in sweet corn and capsicum only. 61717 - Delegate Jemvelva active Insecticide (250 g/kg spinetoram) removed from permit. Restraints from product label added to permit and critical use comments added. Permit expiry extended to 31/01/2028. Permit issued as version 3.
