This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

**THIS PERMIT IS IN FORCE FROM 14 AUGUST 2011 TO 30 NOVEMBER 2024**

**Permit Holder:**

HORTICULTURE INNOVATION AUSTRALIA LTD  
Level 7, 141 Walker Street  
NORTH SYDNEY NSW 2060

**Persons who can use the product under this permit:**

Persons generally.

## CONDITIONS OF USE

### Products to be used:

THIMET 100G SYSTEMIC GRANULAR INSECTICIDE (APVMA No. 33071)

PLUS OTHER REGISTERED PRODUCTS

Containing: 100 g/kg PHORATE as the only active constituent.

THIMET 200G SYSTEMIC GRANULAR INSECTICIDE (APVMA No. 41439)

PLUS OTHER REGISTERED PRODUCTS

Containing: 200 g/kg PHORATE as the only active constituent.

### Directions for Use:

Crops	Insect pests	Rate
EGGPLANT PEPPERS (Including chillies, capsicums & paprika) SHALLOTS SPRING ONIONS	APHIDS, JASSIDS, MITES, THRIPS, ONION MAGGOT	<b>100 g/kg phorate products</b> Apply 10 – 15 kg product per hectare  <b>200 g/kg phorate products</b> Apply 5 – 7.5 kg product per hectare

### Critical Use Comments:

- Eggplant and Peppers – apply as per the label directions for tomatoes. Distribute granules evenly in the furrow at planting time.
- Shallots & Spring onions – apply as per the label directions for onions. Apply granules as a band at sowing or to established plants in 5cm band each side of growing crop. Incorporate into soil where possible or apply when rain is expected, or overhead irrigation can be made. Avoid contact with seed.
- DO NOT apply more than 1 application per year.
- Very dangerous. Product can kill if absorbed by skin, inhaled or swallowed. This product is too hazardous for use in the home garden.
- Remove unprotected persons and domestic animals from the operating area. Keep livestock out for 10 weeks. Take precautions to prevent birds, domestic animals and people from recovering granules from the soil surface.
- Dangerous to fish and Crustacea. DO NOT contaminate streams, waterways or rivers with the product or used containers. DO NOT leave granules on soil surface.
- Refer to ‘Insecticide Resistance Warning’ on label for information on resistance management.

### Withholding Period:

Eggplant and Peppers

Harvest: DO NOT harvest for 10 WEEKS after application.

Shallots and Spring onions

Harvest: DO NOT harvest for 8 WEEKS after application.

### Jurisdiction:

ALL STATES AND TERRITORIES

### Additional Conditions:

This permit provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

The active constituent covered by this permit, phorate, is nominated and prioritised for consideration under the APVMA chemical review process. Continued issuance of this permit is subject to outcomes of any APVMA review of phorate.
