PERMIT TO ALLOW MINOR USE OF AN AGVET CHEMICAL PRODUCT

FOR QUARANTINE TREATMENT OF NUSERY STOCK

PERMIT NUMBER – PER9795

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 1 APRIL 2007 TO 31 MARCH 2027.

Permit Holder:

DEPARTMENT OF AGRICULTURE AND FOOD WESTERN AUSTRALIA
3 Baron-Hay Court
SOUTH PERTH WA 6155

Persons who can use the product under this permit:

Persons generally.

DIRECTIONS FOR USE

This permit is issued to allow the off-label use of registered products containing the active constituents bifenthrin, imidacloprid, mancozeb and chlorothalonil on nursery stock for the purposes intra and interstate quarantine.

Nursery Stock is defined as non-food crops and limited food crops (as listed below) grown under nursery conditions.

Non-Food Crops

(Listed under each crop type are a number of representatives of each of the different classifications).

1. Seedlings & plugs:
Crops - (including Lisianthus, Petunia, Marigold, Pansy, Begonia)
2. Potted colour (perennial/annual)
Crops - (including Petunia, Cyclamen, Gerbera, Poinsettia, Chrysanthemum, Impatiens)
3. Tree & shrubs (evergreen/deciduous)
Crops - (including Murraya, Duranta, Syzygium, Magnolia, Grevillia)
4. Foliage Plants (house plant/landscape)
Crops - (including Bromeliads, Spathiphyllum, Philodendron, Cordyline, Croton, Ferns)
5. Palms
Crops - (including Golden Cane, Foxtail, Alexanda, C. seifrizii, Rhaps)
6. Grasses
Crops - (including Liriope, Pennisetum, Phormium, Dianella, Lomandra)
7. Non-bearing fruit trees
Crops - (including Citrus, Mango, Cherry, Apple, Passionfruit)
8. Aquatic plants
Crops - (including Waterlilies, Lotus, Papyrus, Cigar rush, Thalia)

Food Crops

1. Vegetable seedlings
Crops - (including Tomato, Lettuce, Cabbage, Capsicum, Chilli)
2. Fruit trees
Crops - (including Citrus, Mango, Cherry, Peach, Passionfruit)
3. Herbs
Crops - (including Basil, Parsley, Mint, Coriander, Rosemary)

NOTE: NOT all nursery stock may be treated under this permit as certain restrictions apply to some chemicals and commodities as contained in the following attachments.

- Attachment 1 Bifenthrin
- Attachment 2 Imidacloprid
- Attachment 3 Mancozeb
- Attachment 4 Chlorothalonil

Use must be undertaken in accordance with ALL the Details (Products, Directions for use, Critical use comments etc.) and Additional Conditions of that Attachment.

Jurisdiction:

ACT, NSW, QLD, SA, TAS, NT, WA only

(Note: Victoria is not included in this permit because their 'control-of-use' legislation means that a permit is not required to legalise this off-label use in VIC).

Issued by Australian Pesticides and Veterinary Medicines Authority

Note: Version 8 Issued 3/3/2017 to extend expiry date until 31 March 2027.

Attachment 1

Bifenthrin treatment for identified quarantine pests

Product to be used:

TALSTAR 80 SC INSECTICIDE/MITICIDE Plus other registered products containing 80 g/L BIFENTHRIN as their only active constituent.

TALSTAR 100 EC INSECTICIDE/MITICIDE Plus other registered products containing 100 g/L BIFENTHRIN as their only active constituent.

TALSTAR 250 EC INSECTICIDE/MITICIDE Plus other registered products containing 250 g/L BIFENTHRIN as their only active constituent

Directions for Use:

Crop	Pest	Rate
NURSERY STOCK (RESTRICTIONS APPLY REFER BELOW)	IDENTIFIED QUARANTINE PESTS	Bifenthrin (80 g/L) Apply 6mL/10L water. Bifenthrin (100 g/L) Apply 5mL/10L water. Bifenthrin (250 g/L) Apply 2mL/10L water.

Restrictions:

- Vegetable & herb seedlings - only for the treatment of transplants,
- Fruit trees - DO NOT apply to nursery stock bearing fruit.

Critical use Comments:

Apply via foliar application to above ground parts to the point of run off.

Withholding period: Not required when used as directed.

Additional Conditions:

THIS PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

TO AVOID CROP DAMAGE:

The sensitivity of all species and varieties of the crops to be treated under this permit has not been fully evaluated. It is advisable, therefore, to only treat a small number of plants to ascertain their reaction before treating the whole crop.

Attachment 2

Imidacloprid treatment for identified quarantine pests

Product to be used:

CONFIDOR 200 SC INSECTICIDE Plus other registered products containing 200 g/L IMIDACLOPRID as their only active constituent.

Directions for Use:

Crop	Pest	Rate
NURSERY STOCK (RESTRICTIONS APPLY REFER BELOW)	IDENTIFIED QUARANTINE PESTS	Imidacloprid (200 g/L) Refer to critical use comments, restrictions

Restrictions: only for the treatment of commodities that are either:

- currently approved on the product label or
 - contained in a permit issued by the APVMA for the product or
- and**
- where use may only be undertaken at the rates specified on the product label or in the permit for that commodity and
 - only for the treatment of transplants.

Critical Use Comments:

Apply via foliar application to above ground parts to the point of runoff.

Withholding period: The WHP as specified on either the product label or permit for the situation being treated must be observed.

Additional Conditions:

THIS PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

TO AVOID CROP DAMAGE:

The sensitivity of all species and varieties of the crops to be treated under this permit has not been fully evaluated. It is advisable, therefore, to only treat a small number of plants to ascertain their reaction before treating the whole crop.

Attachment 3

Mancozeb treatment for identified quarantine pests

Product to be used:

ALL REGISTERED PRODUCTS

containing 750 g/kg MANCOZEB OR 800 g/kg MANCOZEB as their only active constituent.

Directions for Use:

Crop	Pest	Rate
NURSERY STOCK (RESTRICTIONS APPLY REFER BELOW)	IDENTIFIED QUARANTINE PESTS	Mancozeb (750 g/kg) 18g of product per 10L of water
		Mancozeb (800 g/kg) 15g of product per 10L of water.

Restrictions:

- Vegetables - only for the treatment of transplants
- Culinary herbs – only for the treatment of parsley transplants
- Fruit trees - DO NOT apply to nursery stock bearing fruit.

Critical Use Comments:

Apply via foliar application to above ground parts to the point of run off.

Withholding period: Not required when used as directed.

Additional Conditions:

THIS PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

TO AVOID CROP DAMAGE:

The sensitivity of all species and varieties of the crops to be treated under this permit has not been fully evaluated. It is advisable, therefore, to only treat a small number of plants to ascertain their reaction before treating the whole crop.

Attachment 4

Chlorothalonil treatment for identified quarantine pests

Product to be used:

ALL REGISTERED PRODUCTS

containing 500 g/kg CHLOROTHALONIL as their only active constituent.

Directions for Use:

Crop	Pest	Rate
NURSERY STOCK (RESTRICTIONS APPLY REFER BELOW)	IDENTIFIED QUARANTINE PESTS	Chlorothalonil (500g/L) 2mL per L water

Restrictions:

- Vegetables - only for the treatment of transplants
- Culinary herbs – only for the treatment of parsley transplants
- Fruit trees - DO NOT apply to nursery stock bearing fruit.

Critical Use Comments:

Apply via a foliar application of above ground parts to the point of run off.

Withholding Period: Not required when used as directed

Additional Conditions:

THIS PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

TO AVOID CROP DAMAGE:

The sensitivity of all species and varieties of the crops to be treated under this permit has not been fully evaluated. It is advisable, therefore, to only treat a small number of plants to ascertain their reaction before treating the whole crop.
